MOHAMMED YASEEN V M

Software Engineer — Backend & Cloud-Native Systems

Malappuram, Kerala, India | +91 9526440673 | mohammedyaseenvm@gmail.com | LinkedIn | github.com/yaseen-vm | Portfolio

PROFESSIONAL SUMMARY

Backend engineer with 1.5 years of full-time experience building production systems at Edstem Technologies — FastAPI services handling 10k+ requests/day, 60% query optimisation gains, and CI/CD pipelines that cut release cycles from 45 minutes to under 10. Specialises in Python backends, clean architecture, and cloud-native infrastructure. Holds AZ-104 (Azure Administrator Associate).

CORE TECHNICAL SKILLS

Languages	Python (primary), JavaScript, TypeScript, Dart
Backend	FastAPI, Flask, REST API Design, Clean Architecture, Dependency Injection, Repository Pattern
Databases	PostgreSQL, MySQL, Redis, MongoDB, SQLAlchemy, Prisma, Supabase
Cloud & DevOps	Docker, Kubernetes, Helm, GitHub Actions (CI/CD), Terraform, Cloudflare Workers, Azure, Nginx, Linux
Testing & Quality	Pytest, Pydantic, Black, Flake8, MyPy, Bandit, Pre-commit Hooks, Playwright (E2E)
Other	Async processing, API Security (JWT, OAuth), Performance Optimisation, Observability (Sentry)

WORK EXPERIENCE

Junior Software Engineer

Jun 2025 – Present

Edstem Technologies · Kochi, Kerala · Full-time

- Designed and shipped backend services handling **10k+ requests/day** with **<120ms p95 latency** using FastAPI and async processing.
- Reduced query execution time by **~60%** through targeted database indexing and Redis caching on high-frequency endpoints.
- Automated deployment pipeline with GitHub Actions, cutting release cycle from **45 min to under 10 min**.
- Maintained **>85% test coverage** on owned services with zero production incidents across 8+ months.

Software Associate

Dec 2024 – Jun 2025

Edstem Technologies · Kochi, Kerala · Full-time

- Integrated 3 third-party APIs (payment, notifications, analytics) eliminating **~5 hours/week** of manual data reconciliation.
- Delivered 12+ features across 6 sprints with zero production incidents on owned code.
- Set up CI pipeline (lint + test + security audit) that reduced bug escape rate by **~40%** within 2 sprints.

PROJECTS

Hoor Al Bahr — Bilingual Restaurant Website

Freelance Client

Python / Flask / Docker / GitHub Actions / Nginx · github.com/Hooralbahr

- Built a bilingual (EN/AR) restaurant website with a Flask backend, SQLite menu database, and an admin dashboard for menu & message management — non-technical staff can update content independently.
- Containerised with Docker and deployed to a production VM with automated CI/CD via GitHub Actions + Nginx; deployments trigger automatically on push to main.

Stack: Python, Flask, SQLite, Docker, GitHub Actions, Nginx

Vivid VitaBlends — Health & Wellness E-Commerce Platform

Freelance Client

React / TypeScript / Node.js / PostgreSQL / Redis / Docker · github.com/vivid-vitablends-showcase

- Full-stack e-commerce platform (React/TypeScript storefront + Node.js/Express API) with JWT auth, refresh-token rotation, Prisma + PostgreSQL, and Cloudflare R2 image storage.
- Introduced Redis caching (300–600s TTL) on product, category, and review endpoints — eliminated redundant DB queries on the hot path while maintaining graceful fallback during Redis outages.
- Dockerised with a full GitHub Actions CI/CD pipeline; Flutter mobile companion app built with Provider state management.

Stack: React, TypeScript, Node.js, Express, PostgreSQL, Prisma, Redis, Docker, GitHub Actions, Cloudflare R2, Flutter

Personal Portfolio — Full-Stack SPA with Cloudflare Workers Backend

Self-Initiated

TypeScript / React / Cloudflare Workers / Terraform · Live

- React 18 + TypeScript SPA with a Cloudflare Workers edge backend serving GitHub stats and blog APIs with KV caching (6-hour TTL, stale-while-revalidate).
- Infrastructure provisioned via Terraform (KV, R2, D1); fully automated deploys on merge to main via GitHub Actions. Sentry error monitoring + uptime checks every 5 min.

Stack: TypeScript, React 18, Vite, Tailwind CSS, Cloudflare Workers, Terraform, GitHub Actions, Sentry

EDUCATION

Bachelor of Computer Applications (BCA) — 2024

Indira Gandhi College of Arts & Science, Ernakulam

Diploma in Cloud Computing & Cyber Security — 2024

GITH Global India Techno Hub

CERTIFICATIONS

Microsoft Azure Administrator Associate — AZ-104 · Microsoft

Microsoft Azure AI Fundamentals — AI-900 · Microsoft · Feb 2026

Microsoft Azure Fundamentals — AZ-900 · Microsoft

Introduction to Kubernetes (LFS158) — Linux Foundation · Mar 2026

Secure AI/ML-Driven Software Development (LFEL1012) — Linux Foundation & OpenSSF · Mar 2026
